Diabetic Nurse

Booking an Appointment

Routine face to face or telephone appointments can be booked up to 3 weeks in advance by speaking to reception or completing an e-consultation online. On the day appointments bookings can be made from 8am Mon-Fri when phone lines open. Our team are trained in right service, first time. This means you will be booked with the most appropriate clinician for your problem. This speeds up your health care journey as it makes sure you see the most qualified clinician first time.

We have a limited number of appointments to offer and once we are at capacity we have to direct you to the most appropriate alternative provider. This may be pharmacy first when a dedicated pharmacist can see and treat a number of minor ailments or NHS 111 who have the ability to book into the urgent care treatment centres which we don't have access to.
